GENERAL CONDITIONS

Races are governed by the Code and Regulations of France Galop, as well as by the general conditions below:

Anyone who enters, races, or has any interest in the ownership of a horse entered or racing in a public race, anyone subject to the provisions of the Code and regulations, anyone allowed to use the race and training grounds of the Royal Society of Races of Waregem, is deemed to know the Code and Regulations of France Galop. They thereby submit to all their provisions and all the consequences that may result from them, as well as to the decisions of the Belgian Jockey Club, its Committee, the Race Commissioners, and the Committee of the Royal Society of Races of Waregem, in particular regarding the limitation of the number of starters in each race. Any entry received after the fixed time is null and void, even if the delay is justified by reasons of force majeure.

Any entry in Belgium for a horse whose most recent race was run abroad must, under penalty of nullity, be accompanied by a dated and signed declaration from the owner stating the horse's last four performances, as well as a summary of all races won since 01/01/25, including the dates of those victories.

No fine will be imposed on a horse declared to start and unable to race for health reasons, provided a veterinary certificate is issued.

FOR ALL THE RACES IN THIS PROGRAMME THE MAXIMUM NUMBER OF HORSES PER RACE WILL BE 12.

If the number of declared runners is greater than 12, the following rules will apply in order to choose the effective runners.

A. In the condition races

The withdrawal of declared runners will be made in the following order in order to reach 12 declared runners:

1. Horses who have been supplemented by an supplementary entry.
2. Horses with the lesser money won (win and places) since 1/01/25, starting with the lowest amount and going upwards. In the case of equal amount between two or more horses, there will be a draw.

B. In the handicap

The withdrawal of declared runners will be made in the following order in order to reach 12 runners. Firstly, the horses with the lowest weight as attributed by the handicapper when the weights were published, starting with the lowest weight and going upwards, taking into account weight for age. In the case two or more horses carry the same weight, priority will be given to the horses who have finished in the first four of a race run in Waregem on the 2th of September 2025 and then by eliminating the horses with the lesser money won (win and places) since 1/01/25.

In the case these criteria cannot split two horses, there will be a draw. The stewards of the races are allowed to change the weights until the moment of declaration of the starters.

The entry fee paid for the horse declared running and not taking part will be multiplied by 4.
